	APPROVAL OF STATE ENGINEER
	This temporary permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 54463 is issued subject to the terms and conditions imposed in said Permit 54463 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. The total combined duty of water under Permits 55603 through 55607, inclusive, 57444 through 57448, inclusive, 60249-T through 60258-T, inclusive, 60265-T and 60266-T shall not exceed 919.45 acre-feet annually for the irrigation of 229.875 acres within the described place of use. (CONTINUED ON PAGE 2)
The	amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to
